

## Making Teams

With the rise of virtual teams and working from home there is now more than ever a need for keeping teams together. More and more companies are moving online for teambuilding with members joining from different locations and time zones. In response, Making Teams has developed a wide mix of online activities to help keep employees productive and engaged no matter how far away and apart they may be. Through online video conferencing the hosts and facilitators lead teams through a variety of stimulating team challenges and exercises such as the **Virtual Amazing Race**, **Virtual Team Escape** and the **Marco Polo Treasure Hunt!** Many companies and teams have already benefited from these activities and Making Teams continues to service customers from around the world during and after the Covid-19 pandemic.
